

Exceptional Workplaces

# EFFICIENCY IS KING

## case study

*Company Details: A real estate company that offers a complete approach to fulfilling office and hotel needs. With more than 50 years of expertise, this company is a respected leader in commercial development and leasing, property management and hospitality. They're ongoing commitment to top quality and service affirms the organization's national reputation for excellence.*

### Problem

Wanting to stay first in class in the metro city's Class A office space, they needed to ensure that their contract cleaners were best utilizing their time cleaning the buildings.

The restroom presented an opportunity to improve efficiencies, to allow for more time to thoroughly clean the restrooms. At the time, they used multi-fold towels, standard bathroom tissue, and limited capacity trash cans.

They needed larger trash cans and more capacity in their towel and tissue cabinets while keeping a supreme image.

### Countermeasure

Our Solution was the **Mod\*** stainless steel full trash can units, and **Scott\*** Coreless Bathroom Tissue.

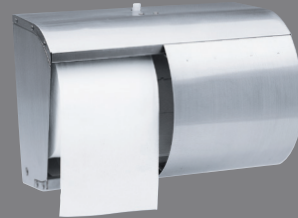

They will also be considering the **Kleenex\*** counter mount skin cleanser after the initial install.

### Results

The **Mod\*** stainless steel full trash can units provided triple the capacity in towels, and double the capacity in the trash can size. Also, we were able to double the capacity with the **Scott\*** Coreless Bathroom Tissue.

The customer was happy that the new systems were able to free up more time for the Building Service Contractors — allowing them to spend more time on value-added cleaning activities, while also keeping the important Class A look and feel.
